Participate in decision-making process of WHO and UN health policies

We are successful American Physicians of Indian-Heritage having made a positive impact in healthcare in our communities and the nation-at-large. AAPI represents our culture, values and principles from our motherland. Elected Leaders of AAPI are custodians of this legacy.

I have served AAPI for two decades with dignity, supported growth of AAPI with commitment and continued to forward AAPI agenda with integrity and passion, without personal gains. My AAPI timeline validates that I am not a fly-by-night leader banking on divisive political strategies.

My goals and aspirations for AAPI have been the same for over a decade. My work for AAPI is factual and verifiable. I will bring the diversity that will help unify AAPI.

I appeal to your conscience and humbly request your support to elect a long-time DEDICATED, LOYAL, HARMONIOUS AND NON-PARTISAN foot-soldier and a PROVEN LEADER of AAPI.
